Sigma Plus

Save without regrets

The Sigma Plus system is the brand locking system for those who value a high level of safety but watch their costs at the same time. New or refurbished buildings – they all need protection.

The outstanding values for drilling and pulling protection of Sigma Plus result in a system that is almost unique in this price class.

Whether front door, apartment door, cellar door, letter box or garage key – with the innovative locking system Sigma Plus you have everything under control with just one key!

Front door

Cellar door

Garage door

Garden gate

Letter box

Advantages

- **HIGH SAFETY**

Up to 19 locking authorisation queries per key make it almost impossible to overcome the cylinder. 6 solid pin tumblers and control pins at the side prevent unauthorised opening with copied keys.

- **KEY PROFILE PROTECTED**

The key profile is protected by a registered trademark.

- **HIGH CONVENIENCE**

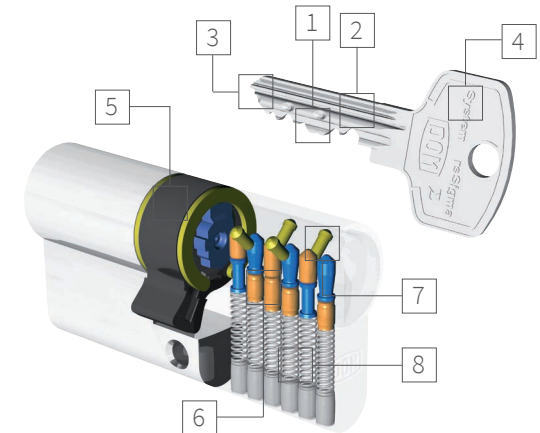

The ergonomic shape of the key head makes it easy to handle.

More safety on the cards

You receive an ID card for individual locking or a service card for master key systems with the system Sigma Plus. This is your special added safety! Because one of these cards must be presented to the specialist dealer if you require copies of the keys to be made. So there is really more safety on the cards with the Sigma Plus.
